

Real estate, Workplaces

Office and commercial real estate

The city of Baden has extensive campus infrastructure, optimally developed commercial districts and state-of-the-art conference centres located close to the historic city centre with its extensive pedestrian zone. The range of available commercial and office spaces is extensive. If you are looking for flexible workplace design, you will find coworking spaces in a central location (e.g. [Office LAB Baden](#)) and shared offices (e.g. [Business Center 1905](#)).

The historically significant area north of the railway station demonstrates the meticulous transformation from industrial use to today's state-of-the-art service centres, complemented by expansive educational facilities, conference centres, residential zones and parks. A very dynamic industrial park has been developed in the district of Dättwil, close to ABB's global corporate research centre and the Baden Cantonal Hospital.

Let us find the right premises for you. Please do not hesitate to contact us. Find here an [overview of the market](#).
