

Family-friendly infrastructure

Baden is cosmopolitan, close to nature and family-friendly – a fascinating place to live! Central living options and the natural recreational opportunities in the city's own forest, spacious parks or along the Limmat river are very popular among people of all ages.

Awarded the UNICEF label "Kinderfreundliche Gemeinde" (child-friendly community) in autumn 2014, Baden offers children and young people a wide range of sporting and creative leisure activities with lots of clubs and groups to choose from. The availability of crèches, daycare facilities and all-day schools makes it easier to balance work and family life.
