

Über den Tellerrand 2025

2025 as a guest at Baden Cantonal Hospital (KSB)

Different sectors strengthen each other and benefit from each other - this is what characterises Baden as a business location.

The Baden Business Contact Centre invites entrepreneurs to look at their business from a new perspective. This year, gain valuable impulses from the dynamic health and medtech sector in Baden-Dättwil.

Our host is the [Baden Cantonal Hospital](#). The new building, which opened in February 2025, is an impressive example of the reorganisation of processes in a complex environment. In his keynote speech, Chairman of the Board of Directors Dr Daniel Heller will show how innovation is put into practice on the KSB healthcare campus.

Following the event, we will offer all interested parties the opportunity to take an exclusive look behind the scenes of the new hospital.

Together with Dr Marjan Kraak, Head of [Health Innovation Hub Aargau](#), we look forward to exchanging ideas with you.
